Introduction

Federal firearms licensees (FFLs) must report to ATF each missing, lost, or stolen firearm from the FFL's inventory or collection within 48 hours of discovery of the loss or theft by completing and forwarding a [Federal Firearms Licensee Theft/Loss Report](#) (ATF Form 3310.11). In addition, the FFL must also report the firearm theft or loss to the appropriate local law enforcement agency.

Analytical Criteria Used to Compile the FFL Theft/Loss Statistics

Queries of the Firearms Tracing System (FTS) were used to determine which firearms were reported in Federal Firearms Licensee (FFL) Thefts/Losses. This information was extracted from the FTS on January 2, 2026, for calendar year 2025.

- FFL Theft/Loss Reports where the reported incident dates were from January 1, 2025, to December 31, 2025, were selected.

- Firearms reported in FFL Theft/Loss Reports and subsequently determined not lost/stolen were excluded from the totals.
- The high number of reported firearm losses associated with Arkansas and Louisiana are due to a single Federal Firearms Licensee audit.

Definitions

Burglary: The unlawful entry of a structure to commit a felony or theft.

Larceny: The unlawful taking or carrying away property from the possessor or of another.

Robbery: Taking anything of value from the care, custody, or control of a person or persons by force or threat of force or violence.

Loss: When an FFL takes a firearm into its inventory and later cannot account for the disposition of the firearm from its inventory during an inventory reconciliation.
